PROGRESS —
HORSE AND BOGEY ERA?

"Let the word go forth from
this time and place to friend and
foe alike that the torch has been
passed to a new generation of
Americans."

In these words of unsurpassed
beauty, President Kennedy has
given prophetic expression to the
spirit of our times. Perhaps these
words have kindled the spirit!

"It is our task in our time and
in our generation to hand down
undiminished to those who come
after us, as was handed down to
us by those who went before, the
natural wealth and beauty which
is ours." . . . "No governmental
program will be effective, our re-
sources will not be protected
without the concern and hope of
every private citizen. Our com-
mon goal: an America of open
spaces, of fresh water and green
country, a place where natural
beauty cannot be despoiled, when
an increasingly urbanized popu-
lation can still go to the coun-
try, can find the material and
spiritual strength upon which our
greatness as a country depends,"
he was saying on other occasions.

These ideas are now echoed
and re-echoed by presidents, by
educators, by philosophers, sci-
entists and earnest, concerned
citizens. But it would appear that
a different prophecy, that of the
Austrian Camillo Sitte, author of
the great book "The Art of Build-
ing Cities" has come true. He, in
the 19th century, lamented the
fact that a generation was grow-
ing up in ever worsening condi-
tions, and that future generations
would not know the difference.
Now, our contemporary, Lewis
Mumford, in his brilliant book
"The Culture of Cities" writes ab-
out our urban scene: "A bad pat-
tern hardened into a system; stan-
dardized ugliness, crystallized
chaos, savagely deteriorated
environment." But we do not
seem to see any more. In fact, we

The Lesson-Sermon also in-
cludes selected passages from the
Christian Science textbook, "Sel-
ence and Health with Key to the
Scriptures" by Mary Baker Ed-
dy. Among them is the following:
"When we realize that there is
one Mind, the divine law of lov-
ing our neighbor as ourselves is
unfolded; whereas a belief in
many ruling minds hinders man's
normal drift towards the one
Mind, one God, and leads human
thought into opposite channels
where selfishness reigns."

confronted our destructive systems
with "progress."

A lover of the country who
flees the city in an attempt at
preserving his health and sanity
is shocked at the wanton despo-
sition not only of natural
beauty but of what is the biolo-
gical basis of our life.

One concrete example is the
obnoxious curb. "Expenditure
that could go into trees and green
open spaces sweeter to the eye
and nose than paving and curbs,"
writes Lewis Mumford. Here,
however, he is mistaken. There
is no need for expenditure—the
green open spaces and trees are
there in abundance, and would be
there still if the unconscionable
sums of money were not spent
on their destruction. The curbs
are of the horse and bogey era;
they are superfluous now; they
are hazards to life and limb in
addition to being ugly and costly.
The majority of fatal accidents
reported are caused by them:
"Car hit the curb, and driver
killed instantaneously"; "bus hit
the guard and burst into flames,
killing twenty and injuring
gravely another twelve," etc. And
the "Brutalists" (as Lewis Mum-
ford calls them) go into diabolic
refinements: the edges of the slabs
—latest fashion is granite—are
being polished to knife-sharpness,
and every inch of the surface—
"dressed" with chisel and ham-
mer—forming separate, little
sharp surfaces. These costly haz-
ards are being proliferated with
a zeal as if their purpose were
to spite the citizens.

A recent survey of traffic acci-
dents has pointed up the fact that
those sudden blow-outs on the
highway—often fatal—are not so
"sudden" at all. The tires are be-
ing systematically damaged by
leaning against those sharp curbs.
To let the green grass reach down
to the road will add comeliness
to our street picture and will
cost nothing. While lifting the
road up into the vertical to cre-
ate hazards costs billions. A re-
cent article mentioned a man so
adept at handling those large
slabs that his weekly "take-home"
check is \$2,000 (two thousands).
How much does his employer take
home? Some years ago one mile
run of ordinary curb cost \$100,000.
The present fashion will probab-
ly cost tenfold.

Another example are the re-
fuge islands, which if left alone,
flush with the ground, would be
green. Mother earth, if left alone,
will always get herself a green
dress—gardens know this well.
But no, it is turned into a hazard
by being raised above the ground,
sort of a bed—instead of flowers
—of asphalt—the cancerous ele-
ment we are fighting in cigar-
ettes—coal-tar; then it is sur-
rounded by a crude curb, painted
green to make it look like grass;
then the obvious hazard has to be
painted a garish loud color—yel-
low is now the style—to warn
people of it! How simple and
much cheaper it would be not to
create the hazard and not have to
bluff and warn? In addition, for
some five months of the year
snow covers it—creating an ad-
ditional invisible obstacle!

Another instance are just cakes
of asphalt surrounded by curbs
the purpose of which I do not
know, so that a car which wants
to go off the road onto the
shoulder should have something
to go around?

All of the above are ugly items
of our road-furniture! Much beau-
ty would be gained if all these
billions—speaking in terms of
the United States—would be saved.
Moreover, every blade of
grass purifies the air some, ev-
ery blade of grass collects mil-
lions of fresh dew and rain-
drops and leads them back into
their source. A well-developed
tree purifies the air polluted by
100 car-exhausts!

If we do not oppose this sort
of "progress" beautiful New
England will—instead of remain-
ing scenic—be in no time, turned
into the asphalt jungle that the
City of New York is, a city that
is past saving!

"OLD PEABODY FEW" TO BE
PRESENTED AT BUXTON
ON AUGUST 9th & 10th

Kate Douglas Wiggin's time-
less play, "The Old Peabody
Few" will be presented Friday
evening, August 9th at 8 o'-
clock, and Saturday afternoon,
August 10th, at 2:30 o'clock in

Lower Corner, near Bar Mills.

The Tory Hill Church is where
the action of the play takes place.
It is fiction, but it might have
happened. The first performance
was given in this church in Aug-
ust, 1916.

The author, Kate Douglas Wig-
gin, dedicated the book and play
to the Dorcas Society of Hollis
and Buxton and the Society feels
a just pride that, with two or
three exceptions, the play has
been presented in the Tory Hill
Church each August since 1916.

There are four new members
in the cast this year: Mrs. Frank
Vail plays the part of Maria
Sharp; Mrs. Joseph Radomski, the
part of Miss Lobelia Brewster;

GREENWOOD CITY

— Mrs. Colista Morgan, Correspondent —

One day this past week I spent with friends, two of whom were classmates.

The day was lovely so we hiked from their cottage to the lower end of the lake. The path lay along the waters edge with heavy deep emerald foliage for a setting. A huge cliff rose up and up, big, towering, and beautiful with promontories overhanging in places and dwarf trees maintaining their tenacious hold in crevice and fissure. They seemed like little grim sentinels on guard, looking down from this age old massive piece of granite.

The trail was rough which provided enough interest to keep us alert, corduroy in places, and in others smooth and grassy, with now and then a jutting rock.

The faint breeze came and went as did the tuneful notes of a thrush.

There was one big stone standing firm and solitary with its mossy top while in back stood

two birches, leaning forward, seemingly to admire the ferns so gracefully imbedded in the moss. All this shut in beneath the leafy trees, still and impressive.

At Lake end we received the long sweeping rush of sound which the wind made as it blew through the miles of forest, and ruffling the waters over a beach so silvery with sand beneath the waves.

We gazed back upon the landscape with changing shadows, picturesque and lovely, then again followed the trail coming in a short time to the cottage, perched against the background of blue ether with a few clouds and shimmering sunshine.

Next we enjoyed a delicious lunch, then passed the so short time remaining at the beach, reviewing school days, teaching days, and camping days with friends and relatives.

The breeze came flustering downlake with its innumerable ripples and boats passed in the distance. I noted one lonely gull.

Toward the days end on that breeze came a smell of creosote which was being applied to a new wharf. This, faint at first, became a challenge in a few moments.

But we refused to be driven from our wonderland of beauty by the fumes in spite of an occasional cough, a stuffy nose, a giddy head or a change of position. Instead the cove rang with fun as we "pulled back the curtains in our theater of time, on scene after scene." The "final act" brought the curtain down with such laughter as to bring

Now came the time to "trip" home knowing that the day would be one of nostalgic memories for many tomorrows.

Mrs. Hazen Libby and daughter, Donna, Portland, met her sister, Mrs. Roland Hayes, Joy Hayes, and Elizabeth Asher on Friday for a smorgasbord at the Country Way Restaurant. Mrs. Libby and Donna spent the night at her sister's. They returned to Portland Saturday morning. Joy and Elizabeth went with them to take a plane to New York. They have been guests at the Hayes Homestead for the past week.

Mr. and Mrs. Roland Hayes and Elmer Hayes spent Sunday with Mr. and Mrs. Ardell Hayes at their camp.

Mr. and Mrs. Maynard Chase, Rena Bacon, West Paris, and Fay Holt were recent callers for the evening, at Mr. and Mrs. Clyde Morgan's.

Duane Hayes has finished his course of study at Gorham State College.

Mr. and Mrs. Clyde Morgan were recent callers at Carroll Nottage's, South Paris.

Vernon and Milton Inman and families spent the week end at the coast with the Boy Scouts.

Dated July 29, 1968.

Her looped karate forehead cape with face veil matched her gown. Her cascade bouquet was of pink and white poms and lilies of the valley.
